WEDNESDAY, JANUARY 14, 1914.

Sometimes, in a campaign, a candidate will give the people something to think about. And other candidates tell funny stories in order to keep the people from thinking.

Paris now steps to the front with the announcement of the discovery by physicians that radium is a cure for certain forms of madness. The doctors, it is asserted, use a serum made of horse's blood, radium salts having first been injected into the animal's veins. Possibly it will be found that this treatment will cure the radium madness with which the world seems to be afflicted just now.

Washington's Birthday this year is going to be celebrated in an unusual manner by Chicago. The Windy City is planning a public reception to 5,000 of its recently naturalized citizens. The Stars and Stripes will be waved and the cagle will be allowed to scream, the same as if it was the Fourth of July, Yet there is a serious side to it, for it really is a welcoming reception that is bound to make the new Americans appreciate their responsibilities, to make better citizens of them, to educate them and to awaken them to their vast opportunities. Other cities would do well to copy.

When prisons are conducted on the we shall need more of them. The voluntary sojourners will be in the majority. In this generation, however, these institutions are lacking in the luxuries to be expected at a Ritz-Carlton, and complaints are to be expected from departing guests accustomed to better accommodations. Charges made against the management of the Atlanta penitentiary by a prisoner who has recently completed his term have been officially declared to be without foundation. There was nothing new about his complaints. The great majority of all prisoners, from no matter what institution they are released, have about the same thing to say. It is simply that they do not find their surroundings And, as we understand it, it is not the intention that they should.

The Grape Juice "Split."

in the "dog days," was given publicity on the outside looking in, vesterday, to the effect that the friends of Secretary of State Bryan charge that certain "special interests" are inspiring the publication of "grape juice" stories concerning the Secretary. Their object, so it is solemnly revealed, is to cause a breach between President Wilson and the head of his Cabinet. Their reason, so it is declared with equal gravity, is that Mr. Bryan exercises an influence over the President that is unfavorable to the "special interests."

So the remedy is to be a "grape juice split."

Mr. Bryan's friends, it is announced will demand an inquiry by Congress proper. Representative Madden, Re-cheerful at the same time. publican, of Illinois, was quick to realize the situation and to grasp his opportunity. He is for the investigation, as all the gayety-loving should be. Mr. Madden said:

This insidious conspiracy should be into. Since Congress has found it necessary to spend part of its time investigating the causes of hilarity of local college students, we ought to find time to look into the causes of trouble, if any, between the President and his chief Cabinet officer, so as to determine the relation newspaper tacks have to it. Put me down as fa-

That covers the entire ground and we pledge our support to Mr. Madden. Only, let there be no delay; the infamy must be nipped in the bud.

voring an investigation.

Botch of a Bill for Senate.

Do the people of the United States regard the Capital of the nation with suspicion or contempt? If they do, then their views are properly reflected on the floor of the House of Representatives. If they do not, they are misrepresented.

The governing body for the District of Columbia is Congress, Its welfare, its very existence, depends upon the acts of the National Legislature. And yet, wants to be the whole thing. whenever legislation affecting the nation's Capital is the business before the House of Representatives the scene is cheaper in Mexico, since Huerta and one of melancholy desolation. Usually Villa and the others have reduced the about forty members are present—one number of persons living down there.

in every ton elected to make the laws for the people. The others seize the more importance—to them. This was the situation on Monday when legislaness in Washington, including tion inimical to the Capital's interest. Burton and three House mem they sworn enemics of stirred up some when they Washington on the District Committee, Senator Foraker's arrival and his powas enacted without a word of protest afble projection as a candidate to

ment of their admiration for it. It is incredible that they are in sympathy with the attitude of the men supposed to represent them-the vast majority of them indifferent, the small minority ac tively friendly or vigilantly hostile to

The protest filed with the Maryland public service commission against the maintenance of the grade crossing of the Baltimore and Ohio Railway at Hyattsville should have all the support that the people of this community can give it. As The Washington Herald has so often stated, most recently in connection with the disaster a a grade crossing in Alexandria County within walking distance of the Capital, the people of the District are interested, as possible victims, in not only the grade crossings now remaining in the District, but also those in the country roundahout through which District residents so frequently travel

Information given to the commission included the fact that more than thirty persons have been killed at the crossing which it is desired to have discontinued. Despite the precautions taken against accidents there can be no complete security from the crossing while it exists.

It would be to the interest of both the railway and the people to have the grade crossing abolished, and abolished at once. There is no excuse for it. If it is the railway's duty to construct an same plan as a modern, first-class hotel overhead or an underground crossing the railway should construct it and pay for it. If this duty is the people's the people should do so. If the duty lies, in whatever proportions, upon both, both should do it. But they should do it now. A grade crossing in a populous country is far more anomalous than a woodburning locomotive.

The crossing at Hyattsville is but one of many that should be abolished. These intersections at grade of rail and public road where steam traffic and the passage of individuals seem opposed as in deadly enmity are numerous. They hould have an instant attention from officials and railways jointly responsible for their maintenance.

How Gov. Hill Revealed His Knowledge of the Law.

(Written Expressly for The Washington Herald.) By E. J. EDWARDS.

In a conversation which I had with John Clinton Gray just before he sailed for Europe, early in January, for six months' rest, I asked him what on the whole was the most impressive expertence he had, speaking from the point of view of a lawyer, in all his service of twenty-five years as associate justice of twenty-five years as a year of twenty-five years as a year of two after Gov. Hill became Jean Chicago.

"A year of two after Gov. Hill became Jean Chicago.

"I'm tempted to answer you in the words of Smythe," said Senator Lodge, "Smythe, you know, when this quen-tion was put to him, replied:

"When my great-grandfather sudden by resigned his position as cashier of a Boston bank they traced him as far a Borneo, but he got away."

Relative Values.

From the Philadelphia Telegraph.

Recently a certain young man was greatly in love with the charming daughter of an old professor and finally getter of an one ting the sweet one's constituting the sweet one's constitution to speak to papa.

"Denfessor," said the young man, has honored me by has honored I have

"Professor." said the young man, "your daughter has honored me oy, promising to be my wife and I have come to ask your consent to the marriage."

"You may have her, my boy," said the professor to the delight of the youth, "and I want to say that in giving her to you I am intrusting to your care the greatest treasure of my life."

Shortly afterward the young man arose to go home, but on reaching the door to go home, but on reaching the door he stopped with much suddenness. "Gee whis!" he exclaimed, "look how "Gee whis:" he exclaimed, "look how it's raining and I have't an umbrella! May I borrow yours, professor?" "You may not, young man," was the prompt reply of the professor. "That umbrella was presented to me by some

fellow-scientists and I wouldn't trust it Applied Logic

with any man on

From the Ladies' Home Journal.

An onlooker shook his head as he watched a steam shovel bite off carth by the ton. He said: "It throws men out of work: it loads those cars faster than 100 men with picks and could do it."

But another onlooker answered: ter to employ 100 men with picks and shovels on this job wouldn't it be better still by your way of thinking to employ 1,000 men with forks and table

From the Terouto (Kana.) Republican. Buster Cannon was at a dance a few nights ago and the next day he said to Glenn Byington: "I was smile and gently said: "Son, you think it was.

So Thoughtful,

From the Kansas City Star.
Wife-What time did you get home last night?

Husband-Eleven thirty Wife-I sat up until 12. Husband-Yes, I sat on the front steps until you retired, so as not to disturb

From Judge.
"Say," calls the bright youth to the bonest agriculturist who is working in his garden, "why don't you set a hen on your egg plants?" "Ma set one on 'em last year."
answers the agriculturist, barely looking

up. "Did she? Hatch anything" "Yep, Hatched out that bed o' cocks-

"TITANIC" ARGUMENTS BEGUN.

upreme Court Hears Debate on Liability of Company for Losses. Arguments were begun in the Supreme Court yesterday in the Titanic cases. These cases involved the question of liability of the Oceanic Steam Navigation Company, Limited, owners of the Titanic, which sank last year. The issue is as to whether the owners are liable

court allowed two hours on each side for Charles C. Burlingame and Norman B. Beecher made the argument in favor o the Oceanic company, and Frederick M. Brown appeared for Meller and Anderson, claimants against the company. The arguments will be concluded today and

case taken under advisement. ALASKA COAL LAND BILL IN.

Senator Pittman's Measure Provides

for Division Into Lots, A bill for the leasing of Alaskan coal lands was introduced in the Senate yes-terday by Senator Pittman. It provides numbered lots are to be withdrawn from the public domain. The odd numbered Hickey, lots are to be subject to mum acreage to be operated by any one mum acreage to be operated by any one person or concern to be 2,560 acres.

The royalty upon coal is to be based on the output of the mines, no royalty to be collected until the coal is used, sold, or transported.

SAFETY MEETING NEAR END.

That the international conference on safety and life at sea, which has been session in London since November 12, will conclude its labors and adjourn by Tuesday text, was indicted in a report received by Secretary Redfield from the American delegation yesterday. The American de egates will start for home as soon as adjournment is taken,

Few Porto Ricans Want Citizenship.

That only one-third of the citizens of Porto Rico now want citizenship was the statement of Senator Shafroth, chairman the Senate Committee on the Pacific Islands and Porto Rico, yesterday. Three years ago, said Senator Shafroth, who entire population was anxious for the rights of citizenship.

Halt on Election Dictation.

A fine of \$1,000 and one year's imprison-ment is the penalty prescribed for em-ployers who issue "threats, notices, or warnings" to their employes in the matter of the election of members of either house of Congress, set forth in a bill introduced in the House yesterday by Representative Kelly, Progressive, of Penn-

A Line o' Cheer Each Day o' th' Year.
